

setMethod, getMethod, displayMethod

```
public class SetGetDisplay Class
```

```
{  
    private String course;
```

```
    public void setMethod (String s)
```

```
{  
        course = s;  
    }
```

```
    public String getMethod ()
```

```
{  
        return
```

```
        course;  
    }
```

```
    public void
```

```
        displayMethod ()
```

```
{  
        S.G.Pl ("Your course is " + getMethod ());  
    }
```

```

}
public class SetGetDisplayClass
